CHAIRMAN'S REPORT

FY22 RESULTS

Coventry achieved solid growth in 2022 with pleasing contributions from all our businesses across Australia and New Zealand. Despite continuing COVID-19 disruptions and worsening macroeconomic conditions, the markets in which we operate remained buoyant throughout the period. Sales revenue was up 11.7% to 322.3m, while earnings before interest and tax improved 17.0% to \$12.4m.

Our vision at Coventry is to be a leading industrial supply and services group in Australia and New Zealand and strong progress was made with our growth strategy in 2022.

This strategy is underpinned by our value proposition of quality products, stock availability, expertise, agility and geographic coverage. Aligned with this strategy, two acquisitions were successfully completed during the period and two greenfield branches were added to the Company's network. In addition, nine branch refurbishments/relocations were completed as part of planned upgrades over the medium term in order to better service our customers' needs. These strategic initiatives were funded from the Company's existing debt facility and improving cash flow.

In each of our segments, opportunities for organic, greenfield and acquisition growth exist. The Board and management assess each opportunity through the lens of refined growth criteria and judicious capital management.

The Group continues to have a strong working capital position with Current Assets exceeding Current Liabilities by \$27.7m. The Group has substantial Australian tax losses of \$76.7m against which a Deferred Tax Asset of \$14.3m has been recognised in its Statement of Financial Position.

DIVIDENDS

The Board has declared a final dividend of 3.5 cents per share, fully franked. The Company's Dividend Reinvestment Plan remains active, enabling eligible shareholders to reinvest their dividend in additional shares in the Company.

EXECUTIVE REMUNERATION

The Company Executive and Director Incentive Plan provides for the granting or issuing of Performance Rights to eligible Executives in accordance with its terms and subject to the terms and performance hurdles set by the Board. The CEO and Managing Director's total remuneration includes a Plan award and, as required by the ASX Listing Rules, the Company will seek shareholder approval to grant him Performance Rights for his participation in the Plan for 2023. Full particulars will be published in the Notice of Annual General Meeting for the meeting to be held on 21 October 2022.

PEOPLE

I would like to thank my Board colleagues for their continuing contribution and guidance in 2022. On behalf of the Board, I would like to thank our colleagues throughout the business who have been resilient and adaptable through another demanding period and remained committed to the Company's values in supporting our customers and each other. The solid financial result achieved for the period is a testament to the strong commitment of all the people at Coventry. To our shareholders, my continuing thanks for your ongoing support.

OUTLOOK

We are cautiously optimistic that the momentum the Group currently has will largely continue. However, given market uncertainty we will not be providing full year guidance but will continue to provide quarterly trading updates to the market.

Neil G. Cathie

Chairman of the Board of Directors

CHIEF EXECUTIVE OFFICER'S REPORT

FY22 was another year of significant disruption in a difficult macroenvironment. Our teams have overcome many obstacles to produce another positive result and my thanks go to every person in the Group for their effort, expertise and professionalism.

We are pleased to report that the Coventry Group's Sales and EBITDA improved for a fifth consecutive year. The strong results were achieved against a backdrop of a second New Zealand Government enforced lockdown (loss of \$3.0m sales and \$750k EBITDA), construction shutdowns in Australia, on-going global supply chain issues, stock shortages, unprecedented price inflation, rising fuel and freight costs, cost and wage inflation and labour and skills shortages. Some of these challenges are expected to remain in FY23, along with the impact of rising interest rates.

We are confident that we have the right strategy, the right people, and operate in the right markets to continue our journey of sustainable profitable growth. Our consistent delivery of sales growth and improved profit results are proof that our strong value proposition and commitment to our core values deliver results.

HEALTH, SAFETY AND WELLBEING

Our Safety-First program continued in FY22. The Group prioritises the Health, Safety and Wellbeing of our people along with our customers, suppliers and communities. We aspire to zero LTI's and zero impact on our people. During FY22 we had four Lost Time Injuries (LTI's) down from seven the previous year and 13 in FY20. All incidents and serious near misses are reviewed by our safety team and the Coventry Leadership Team (CLT) to ensure we share lessons and improve safety systems.

During FY22 we commenced the phased rollout across the business of the safety management platform *Donesafe*, giving our people the ability to easily complete checklists and inspections, report hazards and submit COVID testing and isolation information. Hazard identification and resolution increased dramatically following the introduction of the Hazard Identification module in *Donesafe*.

PEOPLE

We continue to live our values of Fairness, Integrity, Respect, Safety and Teamwork (FIRST), doing the right thing in all our interactions with our people, customers, suppliers and communities.

The recruitment market has become extremely competitive yet our reputation for having a values-based culture is delivering positive employee attraction and retention outcomes for the Group.

During the year:

- We conducted an Employee Engagement Survey and identified four key areas of improvement which are currently being actioned;
- We undertook Diversity and Cultural Awareness training;
- Our HR Team implemented our new Recognition Program;
- We celebrated International Women's Day with a series of forums and guest speakers on 'Breaking the Bias' topics. Two of our leading women also shared their career journeys; and
- We upgraded our Employee Assistance Program in Australia ensuring quality services are available to assist our people and their immediate families in the areas of mental health and wellbeing.

ENVIRONMENT, SOCIAL AND GOVERNANCE

From an environmental perspective, we are in the process of establishing our carbon footprint for our scope 1 and scope 2 emissions and have commenced implementing reduction strategies to reduce our impact on the environment. As part of World Environment Day we conducted site eco-audits on water and energy usage and we are currently applying knowledge obtained across the business. We are also developing waste and recycling system upgrades for our major sites, starting at our Group Head Office in Thomastown.

From a social perspective, we supported our people and communities including:

- During the New Zealand Government enforced lockdown we retained all employees and paid them in full;
- Supporting our employees who needed to isolate due to contracting COVID-19 or being close contacts;
- Rebuilding our Lismore branch which was destroyed during the NSW February floods while keeping all employees employed and paid during the process and assisting employees personally impacted;
- Our Matched Giving and Workplace Giving programs saw us support charity organisations across Australia and New Zealand. This includes, Australia's Biggest Morning Tea and the Pink Ribbon Breakfast in New Zealand, both raising funds to support cancer research and the Movember foundation which makes a difference in mental health, suicide prevention and men's health.

From a governance perspective we continued to conduct internal risk reviews to ensure the continuity of our business and published the Group's second Modern Slavery Statement. As part of this, we updated our Code of Conduct, conducted supplier audits on our top 10 local suppliers and updated our Terms and Conditions to ensure our people, customers and suppliers, are all working towards the same common goal of eradicating modern slavery.

BUSINESS PERFORMANCE

Trading performance improved during FY22 with the Group delivering both sales and profit growth.

The Group achieved sales growth for FY22 of 11.7% to \$322.3m (\$288.5m FY21) and a 16.1% increase in EBITDA to \$15.5m (\$13.4m FY21) despite the loss of \$750k EBITDA due to the NZ Government enforced lockdown across August and September 2021 and other global and COVID-19 related disruption. Group EBIT for FY22 was \$12.4m (\$10.6m FY21) and net profit for the year was \$4.8m (\$7.2m FY21).

The Group has a solid balance sheet with Net Assets of \$113.6m and Net Tangible Assets of \$36.1m as at 30 June 2022. At 30 June 2022 the Group had net debt of \$33.1m.

FLUID SYSTEMS (FS)

FS comprises our Cooper Fluid Systems (CFS), Torque Industries (Torque), HIS Hose (HIS) and Fluid Power Services (FPS) businesses. FS designs, manufactures, sells and services hydraulics, lubrication, fire suppression and refuelling systems and products through 15 branches across Australia. In FY22, FS had positive sales growth of 9.0% but EBITDA declined mainly due to a one-off large order of \$7.9m delivered and charged in FY21 and not repeated in FY22. FS EBITDA in FY22 of \$12.9m compared to \$13.8m in FY21.

FS was particularly impacted by labour and skills shortages requiring it to incur above normal overtime and hire labour to deliver on our customer's needs. We expanded our Redcliffe operation to an additional site and closed our unprofitable Mt Isa branch during the year. Both HIS and FPS performed to expectations and integrations have progressed to plan.

Our FS General Manager, Bruce Carter, retires at the end of September after 40 plus years of service to the Group. I would like to acknowledge Bruce's considerable contribution to the success of the Coventry Group. Pleasingly, Brody Sewell, who has worked for FS for the past 15 years, has been promoted to the role of FS General Manager and has completed a managed handover from Bruce.

FS is positioned for further growth in the coming years as we expect their core markets of mining and resources, defence and agriculture to perform well. We can increase market share through our value proposition, expansion of our product and service offering, expanding our hydraulics capabilities and further diversification into sectors outside of the mining and resources sector. FS has demonstrated through various cycles, that it has the capability to scale according to prevailing market conditions.

TRADE DISTRIBUTION (TD)

Our Trade Distribution segment has expanded to a network of 66 branches across Australia and New Zealand. It comprises our Konnect and Artia Australia (KAA) division which now includes Fraser Coast Bolts (FCB), Trade Distribution New Zealand (TDNZ) which now includes GHL, and Nubco in Tasmania. TD supplies a range of fastening systems, cabinet hardware systems, industrial and construction products and temporary fencing to customers in the manufacturing, construction, infrastructure, agriculture and mining sectors.

TD sales for the year were up 13.4% on the prior year. EBITDA for TD was \$16.1m compared to \$11.7m in FY21.

Konnect and Artia Australia (KAA)

KAA delivered another material improvement in profitability, up \$2.4m on the prior year. This was despite the impact of the construction industry shutdowns, adverse weather events and COVID-19 related absenteeism. To achieve the result, KAA improved their value proposition, service levels and reputation in the marketplace.

The store network was upgraded with store makeovers completed in Bunbury, Lismore and Redcliffe and branch relocations to larger facilities in better locations completed in Artarmon, Wollongong and the Sunshine Coast. The store network was expanded with a new branch in Rockhampton and we added FCB (Hervey Bay) through acquisition.

Trade Distribution New Zealand (TDNZ)

TDNZ delivered positive sales and EBITDA growth while navigating another government enforced lockdown, global supply chain issues causing stock shortages in some key product lines and other COVID-19 issues. The opening of a new branch in Invercargill late in FY21 and the addition of GHL through acquisition takes our branch footprint to 18. We also relocated our Albany branch to a larger facility and refurbished our Dunedin branch.

Nubco

Nubco delivered a second consecutive year of very strong sales and EBITDA growth. The business managed significant price inflation through the year, in particular on its steel products. During the year we invested in our Devonport retail branch. The Tasmanian economy is performing well and we are confident we can continue to grow in this market.

CENTRAL SERVICES

Our facility with the National Australia Bank was increased to \$55.0m during the year. The move to the National Australia Bank in Australia for transactional banking is now largely complete. We are in the process of moving our New Zealand banking to Bank of New Zealand.

Corporate costs are currently running at 4.6% of sales (4.7% FY21). We expect productivity projects will allow us to continue to reduce corporate cost % to sales in FY23.

TECHNOLOGY

A project to select a new Enterprise Resource Planning (ERP) system to replace our ageing Oracle system was completed and the Board has approved a two and half year project to implement Microsoft Dynamics 365 Finance and Operations as our core ERP platform. The system will integrate seamlessly with our existing Microsoft systems including Office, SharePoint, Teams, Power BI and Customer Relationship Management (CRM) system. Significant work has occurred to build an experienced project team to deliver the project with appropriate governance in place.

Our Digital Customer Engagement project to deliver online and mobility solutions for customers, a CRM system and a user-friendly Point of Sale module is now well advanced.

ACQUISITIONS

Our FY21 acquisitions, HIS Hose and Fluid Power Services both performed to expectations and the integration of these businesses has progressed to plan.

We completed two acquisitions during the year acquiring the business and assets of:

- Goudie Holdings Limited and NZ Plank Hire Limited ("GHL"); and
- Fraser Coast Bolts and Industrial Supplies ("FCB")

funded through the Groups' existing debt facility. Both acquisitions have performed to expectations since joining the Group at the start of April 2022.

GOUDIE HOLDINGS LIMITED

We acquired New Zealand based GHL for NZ\$9.0m cash. GHL is Auckland's leading specialist in temporary fencing sales and hire and scaffolding plank hire into our existing construction and infrastructure markets. GHL expands Coventry Group's Trade Distribution presence in New Zealand.

FRASER COAST BOLTS AND INDUSTRIAL SUPPLIES

We acquired Queensland based FCB for A\$2.8m cash. FCB is a leading provider of fasteners and industrial supplies in the Hervey Bay and Bundaberg regions in Queensland. FCB expands Coventry Group's Konnect and Artia Australia branch network.

SIGNIFICANT ITEMS

The FY22 result was impacted by a number of one-off significant items:

- Costs relating to acquisitions (\$1m)
- Cloud based computing costs required due to change in accounting standard (\$0.4m) non-cash
- Restructuring and other costs (\$1.0m).

NET ASSETS/WORKING CAPITAL

The Group has a solid balance sheet with Net Tangible Assets of \$36.1m and Net Assets of \$113.6m compared to \$109.8m in FY21.

Initiatives to reduce working capital and maximise cash generation remain a key focus area for the Group.

The Group has tax losses of \$76.6m available for use in Australia and franking credits of \$9.9m available at balance date.

NET DEBT POSITION

Net debt of \$33.1m at 30 June 2022 (net debt of \$16.3m at 30 June 2021).

Net debt was impacted by:

- Acquisition related payments (\$10.0m)
- Price inflation impact on inventory valuation (\$7.0m)
- Increasing stock holdings to maintain service levels during FY21 due to global supply chain issues (\$4.8m)
- Capital expenditure (\$5.4m)

Our priority has been to maintain service levels to our customers. In FY23 we have set up a dedicated project team empowered to reduce inventory levels. We will continue to tightly manage collections and manage operating costs to improve our cash position.

OUTLOOK

We are cautiously optimistic that the momentum the Group currently has will largely continue.

The future is not without challenges with COVID-19, global supply chain issues and material shortages, competition for labour and skills, rising freight and fuel costs, cost inflation and wage inflation. Our people have proven to be resilient and we are confident that we will continue to successfully navigate the volatile macroenvironment.

We are fully focussed on our People, Customers and our Suppliers, and applying our values of Fairness, Integrity, Respect, Safety and Teamwork.

We remain confident that we have the right strategy, the right people and operate in the right markets to continue our journey of sustainable profitable growth.

I would like to acknowledge the support received from the Board and thank the Coventry Leadership Team and every person in the Group for their contribution during the year. We faced many challenges during the year and responded well.

We remain confident that we will deliver sustainable profitable growth to our shareholders.

Regardless of the challenges we face, we will stay true to our values and do the right thing.

Coventry Group Ltd and its controlled entities

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2022

1. SIGNIFICANT ACCOUNTING POLICIES

Coventry Group Ltd (the "Company") is a for profit company domiciled in Australia. The address of the Company's registered office is 235 Settlement Road Thomastown VIC 3074 Australia. The consolidated financial statements ("financial report" or "consolidated financial report") of the Company for the financial year ended 30 June 2022 comprises the Company and its controlled entities (together referred to as the "Group").

During the year the Company has entered into a deed of cross-guarantee with its subsidiary entities. Under the deed of cross-guarantee, each body has guaranteed that the debts to each creditor of each other body which is a party to the deed will be paid in full in accordance with the deed.

The financial report was authorised for issue by the Directors on 26 August 2022.

(a) Statement of compliance

This financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (AASBs) (including Australian Interpretations) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The consolidated financial report of the Group complies with the International Financial Reporting Standards (IFRSs) and interpretations adopted by the International Accounting Standards Board (IASB).

(b) Basis of preparation

The financial report is presented in Australian dollars, which is the Company's functional currency. The financial report is prepared on the historical cost basis except for certain financial assets and liabilities (including share-based payments and derivative financial instruments) which are stated at their fair value.

The Group is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 dated 24 March 2016 and in accordance with that Instrument, amounts in the financial report have been rounded off to the nearest thousand dollars, unless otherwise stated.

The Group has consistently applied the accounting policies (as set out in Note 1(d) – 1(u)) to all years presented in this consolidated financial report.

Going Concern

In preparing the financial report, the Directors have made an assessment of the ability of the Group to continue as a going concern, which includes consideration of ongoing compliance with financial debt covenants (see note 18), the continuity of business operations, realisation of assets and settlement of liabilities in the ordinary course of business and at the amounts stated in the financial report. The Directors have a reasonable expectation that the Group will have adequate resources to continue to meet its obligations as they fall due.

(c) New and amended standards adopted by the Group

The following new and amended standards are not expected to have a significant impact on the Group's consolidated financial statements.

- COVID-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16).
- Annual Improvements to IFRS Standards 2018-2020.
- Property, Plant & Equipment: Proceeds before Intended Use (Amendments to IAS 16).
- Reference to Conceptual Framework (Amendments to IFRS 3).
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1).
- IFRS 17 Insurance Contracts and amendments to IFRS 17 Insurance Contracts.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2).
- Definition of Accounting Estimates (Amendments to IAS 8).

There are no significant new standards or interpretations not yet adopted.

Standards issued but not yet effective

The Group has not early adopted the following new or amended standards issued but not yet effective. The standards are not expected to have a significant impact on the Group's consolidated financial statement.

- Onerous contracts – Cost of Fulfilling a Contract (Amendments to IAS 37).
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12).

1. Significant accounting policies (continued)

(d) Basis of consolidation

Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in the consolidated statement of profit or loss.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

Controlled entities

Controlled entities are entities controlled by the Company. Control exists when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Investments in controlled entities are carried at their cost of acquisition in the Company's financial statements, net of impairment write downs. Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in the consolidated statement of profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

1. Significant accounting policies (continued)

(e) Foreign currency

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of the Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Foreign currency differences arising on translation are recognised in the consolidated statement of profit or loss.

Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to Australian dollars at exchange rates at the reporting date.

The revenues and expenses of foreign operations are translated to Australian dollars at rates approximating the foreign exchange rates at the dates of the transactions.

Foreign currency differences are recognised in other comprehensive income and presented in the translation reserve in equity. However, if the operation is a non-wholly owned subsidiary, then the relevant proportionate share of the translation difference is allocated to the non-controlling interests.

(f) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and short-term deposits with a maturity of three months or less at inception date.

(g) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on weighted average cost. In the case of manufactured inventories and work in progress, cost includes an appropriate share of overheads. An impairment allowance is made for obsolete, damaged and slow-moving inventories.

(h) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost less loss allowance.

(i) Property, plant and equipment

All classes of property, plant and equipment are stated at cost less depreciation and any accumulated impairment loss.

Depreciation

Items of property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives from the date that they are installed and are ready for use.

The estimated useful lives for each class of asset are:

Class of Fixed Asset	Depreciation Rate
Plant and Equipment	5% - 40%

(j) Intangibles

Goodwill

Goodwill that arises upon the acquisition of subsidiaries is included in intangible assets. For the measurement of goodwill at initial recognition, see Note 1(d). Goodwill is not amortised, but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Computer software

Computer software comprises licence costs and direct costs incurred in preparing for the operation of that software, including associated process re-engineering costs. Computer software is measured at cost less accumulated amortisation and impairment losses. Computer software costs that have been categorised as a Software-as-a-Service (SaaS) arrangement are recognised as an expense in the consolidated statement of profit or loss.

1. Significant accounting policies (continued)

Other intangible assets

Brand names and customer relationships acquired in a business combination are recognised at fair value at the acquisition date. Brand names have an indefinite useful life and are measured at cost less accumulated impairment losses. Customer relationships have a finite useful life and are measured at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation

Except for goodwill and brand names, intangible assets are amortised on a straight-line basis in the consolidated statement of profit or loss over their estimated useful lives, from the date that they are available for use. In current and comparative periods, customer relationships was estimated to have a useful life of 10 years. Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(k) Financial Instruments

Investments and other financial assets

The Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss ("FVPL"), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in the consolidated statement of profit or loss.

Impairment of financial assets

The Group assesses on a forward-looking basis the expected credit losses associated with its instruments carried at amortised cost and fair value through other comprehensive income ("OCI"). The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same type of contract. The Group has concluded that the expected loss rates of trade receivables are a reasonable approximation to the loss rates for the contract assets.

(l) Impairment of assets (financial and non-financial)

Non-financial

Goodwill and intangible assets that have an indefinite useful life are not amortised but are tested annually for impairment in accordance with AASB 136. Other assets are tested for impairment whenever events or circumstances arise that indicate that the carrying amount of the asset may be impaired. An impairment loss is recognised where the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of an asset is defined as the higher of its fair value less costs of disposal and value in use.

Financial

Financial assets are tested for impairment at each financial year end.

(m) Employee benefits

A provision is made for the Group's liability for employee benefits arising from services rendered by employees to balance date. These benefits include wages and salaries, annual leave and long service leave. Sick leave is non-vesting and has not been provided for.

(n) Provisions

A provision is recognised in the statement of financial position when the Group has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Make good

Provision for make good in respect of leased properties is recognised where appropriate based on the estimated cost to be incurred to restore premises to the required condition under the relevant lease agreements.

(o) Trade and other payables

Trade and other payables are stated at amortised cost.

1. Significant accounting policies (continued)

(p) Revenue and other income

Revenue is recognised when control of a good or service transfers to a customer. Determining the timing of the transfer of control – at a point in time or over time - requires judgement.

Sale of goods – revenue recognised at a point in time

Revenue from the sale of goods that are not subject to contract manufacturing arrangements is measured at the fair value of the consideration received or receivable, net of returns, rebates and goods and services tax payable to the taxation authority.

Revenue is recognised when a customer obtains control of the promised goods and the Group has satisfied its performance obligation in relation to the promised goods. In determining when control of promised goods passes to the customer, the Group considers a variety of factors including a present right to payment, physical possession, legal title, the transfer of significant risk and rewards of ownership of the goods and customer acceptance of the asset. The timing of the transfer of control to the customers for the sale of goods occurs either:

- When the goods are despatched or delivered in line with the Incoterms as detailed in the relevant contract of sale or purchase order for the goods. The Group sells a significant proportion of its products on Free-In-Store/ Delivered at Place Incoterms. This means the Groups control of the goods passes when the product is delivered to the agreed destination;
- When they are made available to the customer and ownership transfers prior to despatch as detailed in the relevant contract of sale or purchase order for the goods; or
- On notification (following stocktake) that the product has been used when the goods are consignment products located at customers' premises.

Where cash consideration has been received but the revenue recognition criteria has not been met, such amounts have been recorded on the consolidated statement of financial position as a contract liability.

Sale of goods – contract manufacturing and supply revenue recognised over time

The Group has determined that for bundled contract manufacturing comprising design, build, install and service elements, the customer controls the goods once the goods are finished and installed on premises in accordance with the relevant contract. This is because under the contract, goods are manufactured to a customer's specification, and if a firm order that is placed by the customer in accordance with the agreement is terminated, the Group is entitled to a reimbursement of the costs incurred in manufacturing the goods, including a reasonable margin. Therefore, revenue for the agreements and the associated costs are recognised over time. That is, before the goods are delivered to the customer's premises. Invoices issued according to contractual terms and amounts not yet invoiced are presented as contract assets.

(q) Leases

Leases in which the Group is a lessee

The Group recognises all lease liabilities and corresponding right-of-use assets, with the exception of short-term (12 months or fewer) and low value leases, on the balance sheet.

Lease liabilities are initially measured at the net present value of future lease payments and extension options expected to be exercised. Variable lease payments not dependent on an index or rate are excluded from the calculation of lease liabilities. Payments are discounted at the incremental borrowing rate of the lessee. Non-lease components are excluded from the projection of future lease payments and recorded separately within operating costs on a straight-line basis.

The right-of-use asset, resulting from a lease arrangement, at initial recognition reflects the lease liability, initial direct costs and any lease payments made before the commencement date of the lease less any lease incentives plus, where applicable, provision for dismantling and restoration.

1. Significant accounting policies (continued)

The Group recognises depreciation of right-of-use assets and interest on lease liabilities in the consolidated statement of profit or loss over the lease term. Repayments of lease liabilities are separated into a principal portion (presented within financing activities) and interest portion (which the Group presents in operating activities) in the cash flow statement.

Leases in which the Group is a lessor

The Group sub-leases some of its properties. The Group has applied the guidance set out in AASB 16 to classify these as either a finance lease or operating lease.

Operating leases

Rental income is recognised in the statement of profit or loss as other income.

Finance leases

The Group recognises an investment in sub-lease in the statement of financial position. Rental income is recognised in the consolidated statement of profit or loss as interest income. Finance sub-leases are classified with reference to the right-of-use asset arising from the head lease.

(r) Finance income and finance costs

Finance income comprises interest income on funds invested and on finance leases where the Group is a lessor. Interest income is recognised as it accrues in the consolidated statement of profit or loss, using the effective interest method.

Finance costs comprise interest expense on borrowings and leases.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in the consolidated statement of profit or loss using the effective interest method.

Foreign currency gains and losses on financial assets and financial liabilities are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

(s) Income tax

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the statement of profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: initial recognition of goodwill, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences only to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Group.

Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend.

1. Significant accounting policies (continued)

Tax consolidation

The Company and its wholly owned Australian resident entities have formed a tax consolidated group with effect from 1 November 2002 and are therefore taxed as a single entity from that date. The head entity within the tax consolidated group is Coventry Group Ltd.

Current tax expense/income, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax consolidated group are recognised in the separate financial statements of the members of the tax consolidated group using the 'separate taxpayer within group' approach by reference to the carrying amounts of assets and liabilities in the separate financial statements of each entity and the tax values applying under tax consolidation.

Any current tax liabilities (or assets) and deferred tax assets arising from unused tax losses of the controlled entities is assumed by the head entity in the tax consolidated group and recognised by the Company as an equity contribution or distribution.

The Company recognises deferred tax assets arising from unused tax losses of the tax consolidated group to the extent that it is probable that future taxable profits of the tax consolidated group will be available against which the asset can be utilised.

Any subsequent period adjustments to deferred tax assets arising from unused tax losses as a result of revised assessments of the probability of recoverability is recognised by the head entity only.

(t) Goods and services tax

Revenue, expenses and assets are recognised net of the amount of goods and services tax ("GST"), except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables in the statement of financial position are stated with the amount of GST included. Cash flows are included in the statement of cash flows on a gross basis.

(u) Accounting estimates and judgements

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expense. The estimates and associated assumptions are based on historical experience and on other factors it believes to be reasonable under the circumstances, the results of which form the basis of the reported amounts that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are:

- estimation of current tax payable, current tax expense and recovery of deferred tax assets based on forecasted taxable profit – note 1(s) and note 7
- estimated useful life of intangible assets – note 1(j)
- revenue recognition: whether revenue from made-to-order products is recognised over time or at a point in time – note 1(p) and note 2(b)
- estimated impairment of non-financial assets and measurement of the recoverable amount of cash generating units – note 16
- valuation of inventories – note 1(g)
- valuation of trade receivables – note 1(k) and note 22
- estimation of lease term under AASB16 – note 1(q)
- estimation of fair value of assets acquired and liabilities assumed in business combinations, and fair value of consideration transferred (including contingent consideration) – note 3
- estimation of share-based payment arrangements – note 20.

2. SEGMENT INFORMATION

(a) Description of segments

The Group has reportable segments as described below. For each of the strategic reportable segments, the CEO reviews internal management accounts on a monthly basis. The following summary describes the operations of each of the Group's reportable segments:

Trade Distribution	Includes the importation, distribution and marketing of industrial fasteners, industrial hardware supplies and associated products, temporary fencing, and cabinet making hardware.
Fluid Systems	Includes the design, manufacture, distribution, installation and maintenance of lubrication and hydraulic fluid systems and hoses.

3. BUSINESS COMBINATIONS

(a) Current period business combinations

As the acquisitions have recently occurred the fair value of assets and liabilities are presented as provisional amounts.

If new information obtained within one year of the date of the acquisition about facts and circumstances that existed at the date of acquisition and which identify differences in fair value, then the accounting for the acquisition will be revised.

Acquisition of Goudie Holdings Limited and NZ Plank Hire Limited ("GHL")

On 31 March 2022, the Group acquired the business and certain assets and liabilities of GHL, a specialist in temporary fencing sales and hire and scaffolding plank hire in Auckland.

The Group incurred acquisition-related costs of \$45,000 on legal fees and due diligence costs. These costs have been expensed in the consolidated statement of profit or loss in the year incurred.

The goodwill is attributable to GHL's strong historic profit performance and potential for further growth and expansion. The acquisition offers tangible synergies that will benefit the Group's Trade Distribution business including joint customer opportunities, group buying benefits and strong New Zealand presence.

Acquisition of Fraser Coast Bolts and Industrial Supplies ("FCB")

On 1 April 2022, the Group acquired the business and certain assets of FCB, a leading provider of fasteners and industrial supplies in the Hervey Bay and Bundaberg regions in Queensland.

The Group incurred acquisition-related costs of \$5,000 on legal fees and due diligence costs. These costs have

been expensed in the consolidated statement of profit or loss in the year incurred.

The goodwill is attributable to FCB's strong market position in a region that has not been previously serviced by the Trade Distributions network. The acquisition offers synergies including excellent growth opportunities and buying benefits across the Trade Distribution business.

Summary of business combinations during the period

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

3. Business Combinations (continued)

Revenue and profit contribution

The acquisition of GHL contributed revenues of \$2,058,000 and net profit of \$402,000 to the Group for the period from 31 March 2022 to 30 June 2022 (three months trading).

The acquisition of FCB contributed revenues of \$706,000 and net profit of \$169,000 to the Group for the period from 1 April 2022 to 30 June 2022 (three months trading).

If the acquisitions had occurred on 1 July 2021, the Group's estimated consolidated revenue and estimated consolidated profit after tax for the year ended 30 June 2022 would have been \$330,572,000 and \$6,290,000 respectively.

(b) Prior period business combination provisional amounts finalised

At 30 June 2021 the amounts disclosed as the fair value of the identifiable assets and liabilities acquired in the business combination of Fluid Power Services (FPS) on 30 April 2021 were presented as provisional amounts. The amounts have been finalised and resulted in an increase to goodwill of \$249,000 representing \$249,000 post-tax inventory adjustments after a detailed assessment of fair values.

The final acquisition accounting for FPS is summarised below:

	FPS
	\$'000
Purchase consideration	
Cash paid	1,646
Cash payable	200
Total	1,846
Fair value of net assets acquired	
Inventories	239

16. IMPAIRMENT OF NON-FINANCIAL ASSETS

For the purpose of impairment testing, goodwill and indefinite life intangible assets are allocated to the Group's reportable segments. The aggregate carrying amounts of goodwill and indefinite life intangible assets allocated to each CGU are as follows.

	2022			2021		
	Goodwill	Brand Name	Total	Goodwill	Brand Name	Total
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000

Total	36,949	11,919	48,868	30,310	11,376	41,686

The key assumptions used in the value in use calculations include projected sales growth, projected gross margins, terminal growth rate, improvements in working capital and the discount rate. These assumptions are based on historical experience and projected performance. Budget and forecast calculations cover a period of five years. A long-term growth rate is determined and applied to project future cash flows after the fifth year.

For the year ended 30 June 2022, the Group's value in use model showed the recoverable amount exceeded the carrying amount of both the Trade Distribution and Fluid Systems CGUs.

The values assigned to the key assumptions were:

Fluid Systems

- Sales growth at 7.11% for FY23, 8.00% for FY24, 7.00% for FY25, 6.00% for FY26 and 8.00% for FY27
- Terminal growth 2.5%
- Post-tax WACC of 9.13%

Trade Distribution

- Sales growth at 14.40% for FY23, 10.68% for FY24, 8.55% for FY25, 7.65% for FY26 and 8.00% for FY27
- Terminal growth 2.5%
- Post-tax WACC of 9.13%

Borrowing Base facility

The Group has a \$55.0 million Borrowing Base facility against eligible inventory and debtors with a current expiry of March 2024 (2021: \$45.0 million). This is a revolving facility on fixed term periods, and is subject to quarterly financial covenants. The overall facility is secured by General Security Deeds with Australian and New Zealand entities as well as Rights of Entry to eligible inventory locations. The facility is subject to a floating interest on funds drawn. The facility limit is scalable for future growth.

Guarantee facility

In addition to the borrowing facilities above, the Group has a \$5.0 million Standby Letter of Credit to provide security for Transactional Banking, Bank Guarantees, FX and other transactional facilities up to the limit specified in each individual guarantee.

ANZ Facilities

The Group maintains a small residual intraday facility with ANZ which will be closed upon full transition of transactional banking to the NAB.

20. SHARE-BASED PAYMENTS

Executive and Director Incentive Plan

An Executive and Director Incentive Plan was re-approved by shareholders in 2021. The Plan governs the future granting of performance rights and issue of shares based on annual Company performance. Vesting of performance rights may vary subject to the extent performance hurdles have been met and the exercise of Board discretion. On vesting, the performance rights entitle the recipient to receive fully paid shares in the Company.

The following share-based payments existed at 30 June 2022:

	30 June 2022		30 June 2021	
	Number of performance rights	Weighted average fair value	Number of performance rights	Weighted average fair value

Ordinary shares

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

Nature and purpose of reserves

Translation reserve

The translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations where their functional currency is different to the functional currency of the reporting entity, as well as from the translation of liabilities that hedge the Company's net investment in a foreign subsidiary.

Share based payments reserve

The share-based payment reserve comprises the fair value of shares and options that are yet to vest under share-based payment arrangements.

Hedge reserve

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of hedging instruments used in cash flow hedges pending subsequent recognition in the consolidated statement of profit or loss as the hedged cash flows affect profit or loss.

Profit reserve

The profit reserve comprises retained profits since the reserve was first established in the 2021 financial year.

Dividends

The Board has declared a final dividend of 3.5 cents per share, fully franked, in relation to the year ended 30 June 2022. The Company's Dividend Reinvestment Plan enables eligible shareholders to reinvest their dividend in additional shares in the Company.

A final dividend of \$2.7 million (3 cents per share, fully franked) in relation to the financial year ended 30 June 2021 was declared and paid by the Group in the financial year ended 30 June 2022. Final dividend paid includes dividend reinvested of \$1.2 million.

22. FINANCIAL RISK MANAGEMENT

The Group has exposure to the following risks from their use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group has not disclosed the fair values of the Level 1 financial instruments detailed below including cash and cash equivalents, short term trade receivables and payables, borrowing facility and lease liabilities because their carrying amounts are a reasonable approximation of fair value.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's cash and cash equivalents and receivables from customers.

Exposure to credit risk

The carrying amount of the Group's financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Note	Carrying amount	
		2022	2021
		'000	'000
Cash and cash equivalents	9	15,319	8,221
Trade receivables	10	49,624	45,281
Total		64,943	53,502

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Group's customer base, including the default risk of the industry and country in which customers operate, has less of an influence on credit risk. The Group has no significant concentration of customer base.

Management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered.

Goods are sold subject to retention of title clauses, so that in the event of non-payment the Group may have a secured claim. The Group's terms and conditions of trade have been amended to incorporate the Personal Property Security legislation. The Group does not normally require collateral in respect of trade and other receivables.

The Group's maximum exposure to credit risk for trade receivables at the reporting date by geographic region was Australia \$44,403,000 (2021: \$40,248,000) and New Zealand \$5,220,000 (2021: \$5,033,000).

Cash at bank and short-term or long-term deposits are held with Australian and New Zealand banks with acceptable credit ratings.

22. Financial Risk Management (continued)

Impairment of Trade Receivables

The Group applies the AASB 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics, days past due and historic credit loss data.

The loss allowance as at 30 June 2022 was determined as follows for trade receivables:

	Current	More than 30 days past due	More than 60 days past due	More than 120 days past due	Total
30 June 2022

22. Financial Risk Management (continued)

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group maintains a \$55 million Borrowing Base facility on which interest is payable at prevailing market rates.

Maturities of financial liabilities

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

22. Financial Risk Management (continued)

(c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Group is exposed to foreign currency risk on purchases that are denominated in a currency other than the Australian dollar. The currencies giving rise to this risk are primarily US dollars and Euros. The Group adopts a policy of obtaining, foreign currency forward contracts to hedge its exposure to USD foreign currency risks.

Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Group defines capital as cash, banking facilities and equity.

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

Interest rate risk

The Group's interest rate risk arises primarily from interest-bearing liabilities with variable interest rates where interest rate movements can impact the Group's cash flow exposures.

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments was:

	Carrying amount	
	2022	2021
	\$'000	\$'000
Variable rate financial assets	15,319	8,221
Borrowing facility	(48,411)	(24,500)
Total	(33,092)	(16,283)

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any material fixed rate financial assets and liabilities at fair value through profit or loss, and the Group does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

23. LEASES

Leases as lessee

	2022	2021
	\$'000	\$'000
Non-cancellable short-term or low value leases are payable as follows:		
Less than one year	73	52
Between one and five years	-	-
More than five years	-	-
Total	73	52

23. Leases (continued)

The Group leases various premises, plant and equipment and motor vehicles under short-term or low value leases. The leases run for 12 months or less or are of low value. Lease payments are reviewed periodically to reflect market rentals. None of the leases include contingent rentals.

During the financial year ended 30 June 2022 the Group recognised \$313,000 (2021: \$215,000) as an expense in the consolidated statement of profit or loss in respect of short-term or low value leases.

Leases as lessor

At the end of the reporting period, the future minimum lease payments under non-cancellable leases are receivable as follows:

	2022	2021
	\$'000	\$'000
Less than one year	934	976
Between one and five years	1,838	412
More than five years	200	316
Total	2,972	1,704

During the financial year ended 30 June 2022, the Group recognised \$1,058,000 (2021: \$729,000) as income in the consolidated statement of profit or loss.

5. REVIEW OF OPERATIONS AND RESULTS

People

Our Safety-First program continued in FY22. The Group prioritises the Health, Safety and Wellbeing of our people along with our customers, suppliers and communities. We aspire to zero LTI's and zero impact on our people. During FY22 we had 4 Lost Time Injuries (LTI's) down from 7 the previous year and 13 in FY20.

We remain fully focussed on our People, Customers and our Suppliers, and applying our values of Fairness, Integrity, Respect, Safety and Teamwork (FIRST).

Review of businesses

Fluid Systems (FS)

In FY22 FS had positive sales growth of 9.0% but EBITDA declined mainly due to a one-off large order of \$7.9m delivered and charged in FY21 and not repeated in FY22. FS EBITDA in FY22 of \$12.9m compared to \$13.8m in FY21.

FS was particularly impacted by labour and skills shortages requiring us to incur above normal overtime and hire labour to deliver on our customer's needs. We expanded our Redcliffe operation to an additional site and closed our unprofitable Mt Isa branch during the year. Both HIS and FPS performed to expectations and integrations have progressed to plan.

Trade Distribution (TD)

TD sales for the year were up 13.4% on the prior year. EBITDA for TD was \$16.1m compared to \$11.7m in FY21.

Trade Distribution New Zealand (TDNZ)

TDNZ delivered positive sales and EBITDA growth while navigating another Government enforced lockdown, global supply chain issues causing stock shortages in some key product lines and other COVID-19 issues.

The opening of a new branch in Invercargill late in FY21 and the addition of GHM through acquisition takes our branch footprint to 18. We also relocated our Albany branch to a larger facility and refurbished our Dunedin branch.

Konnect and Artia Australia (KAA)

KAA delivered another material improvement in profitability up \$2.4m on the prior year. This was despite the impact of the construction industry shutdowns, adverse weather events and COVID-19 related absenteeism.

To achieve the result, KAA improved their value proposition, service levels and reputation in the marketplace. The store network was upgraded with store makeovers completed in Bunbury, Lismore and Redcliffe and branch relocations to larger facilities in better locations completed in Artarmon, Wollongong and the Sunshine Coast. The store network was expanded with a new branch in Rockhampton and we added FCB (Hervey Bay) through acquisition.

Nubco

Nubco delivered a second consecutive year of very strong sales and EBITDA growth. The business managed significant price inflation through the year, in particular on its steel products. During the year we invested in our Devonport retail branch.

The Tasmanian economy is performing well and we are confident we can continue to grow in this market.

6. EARNINGS PER SHARE

Basic earnings per share and diluted earnings per share for the year ended 30 June 2022 was 5.3 cents and 5.2 cents respectively. This compares to a basic earnings per share and diluted earnings per share for the previous year of 8.1 cents and 7.9 cents respectively.

7. SIGNIFICANT CHANGE IN THE COMPANY'S AFFAIRS

In the opinion of the Directors, there have been no other significant changes in the Group's state of affairs during the financial year.

8. EVENTS SUBSEQUENT TO REPORTING DATE

The Board has declared a final dividend of 3.5 cents per share, fully franked, in relation to the year ended 30 June 2022.

On 25 July 2022 the Company announced an on-market buy-back of a maximum of 9,143,035 ordinary fully paid shares (up to 10% of issued capital) in the Company from the period 10 August 2022 to 10 August 2023.

Other than the matters outlined elsewhere in the Groups financial statements, no other matters or circumstances have arisen since the end of the financial year that have significantly affected, or may significantly affect, the operations, results of operations or state of affairs of the Group in subsequent accounting periods.

9. LIKELY DEVELOPMENTS

The Group will continue to implement its five-year strategy and continue to operate in the markets in which it currently participates.

10. REMUNERATION REPORT - AUDITED

Remuneration is referred to as compensation throughout this remuneration report.

10.1 Key Management Personnel (KMPs)

KMPs are the persons who have authority and responsibility for planning, directing and controlling the activities of the Company and the Group. The following were KMPs of the Group at any time during the reporting period and unless otherwise indicated were KMPs for the entire period:

<i>Directors</i>	<i>Key Management Personnel</i>
NG Cathie	RJ Jackson
RJ Bulluss (CEO and Managing Director)	
AW Nisbet	
JSC Todd	
T Howarth	
A White*	

* A White was appointed to the Board on 1 March 2022.

10.2 Principles used to determine the nature and amount of compensation

Non-executive directors

Non-executive directors receive cash fees for their board and committee work. They are eligible to participate in the Executive and Director Incentive Plan which was re-approved by shareholders at the Annual General Meeting of the Company in October 2020.

Non-executive directors' cash fees are determined within an aggregate directors' fees pool limit, which is periodically recommended for approval by shareholders. The total pool currently stands at \$550,000 (2021: \$550,000) per annum, and was last approved by shareholders in November 2004 with effect from 1 July 2004. The Board determines the allocation of the maximum amount approved by shareholders amongst the respective directors, having regard to their duties and responsibilities. Directors' fees are not directly linked to Company performance. Non-executive directors do not receive termination benefits. There is no provision for retirement allowances to be paid to non-executive directors.

As at 30 June 2022 the non-executive directors' fees were allocated as follows (includes statutory superannuation contributions):

	2022	2021
	\$	\$
Chairman (inclusive of Board and Committee work)	130,000	100,800
Chair of Audit and Risk Committee (inclusive of Board and Committee work)	85,000	75,600
Non-executive Directors (inclusive of Board and Committee work)	80,000	75,600

Executive pay*Remuneration policies*

Remuneration of directors and senior executives is the responsibility of the Remuneration Committee. The Committee has resolved to set remuneration packages which are appropriate in the context of the company's size, complexity and performance but which will attract the calibre of executive required to drive necessary change in order to enhance performance. The Committee seeks external advice in relation to these matters where necessary.

Remuneration for the CEO and senior executives currently comprises three elements:

1. Fixed, cash-based remuneration which includes salary, superannuation and benefits
2. Eligibility to participate in the Company's short-term incentive plan (STI Plan)
3. Eligibility to participate in the Company's long-term share based Executive and Director Incentive Plan (LTI Plan)

The CEO and senior executives have employment contracts with notice periods executable by either party. There are no arrangements in place to provide the CEO or any senior executive with a retirement benefit other than those which accrue by law. Superannuation contributions are paid at the superannuation guarantee rate.

Cash incentives under the STI Plan of up to 65% of fixed annual compensation are payable to the CEO and senior executives based on financial and non-financial measures framed around the Company's trading performance and each individual's performance.

The LTI Plan was re-approved by shareholders at the 2020 annual general meeting. This share-based plan provides for the granting or issuing of performance rights in accordance with its terms and subject to the terms and performance hurdles set by the Board.

Business Performance

In considering the Group's performance and benefits for shareholder wealth, the remuneration committee have regard to the following financial performance metrics in respect of the current financial year and the previous four financial years.

	2022	2021	2020	2019	2018
	\$'000	\$'000	\$'000	\$'000	\$'000
Sales revenue	322,324	288,522	247,567	202,346	168,050
EBITDA ⁽ⁱ⁾	15,505	13,357	6,637	2,811	(4,748)
EBIT	12,355	10,561	4,026	1,145	(6,085)
NPAT	4,841	7,246	(455)	(1,426)	(8,301)
Dividends paid	2,721	-	-	-	-
Share price at year end (\$)	1.33	1.45	0.57	0.91	1.35

(i) EBITDA is the key financial performance target considered in setting the Short-Term Incentive (STI).

(ii) Where applicable, comparative information has been restated for the effects of the application of new accounting standards.

Performance Rights Commentary

In FY22, one third of the performance rights that were vested to the CEO and Managing Director (R Bulluss) in relation to the FY19 performance period, one third in relation to the FY20 performance period and one third in relation to the FY21 performance period, were vested and exercised. One third of the performance rights that were vested to six other Company senior executives in relation to the FY19 performance period, one third in relation to the FY20 performance period and one third in relation to the FY21 performance period were also vested and exercised in FY22.

In relation to FY22, the CEO and Managing Director (R Bulluss) was granted 163,617 performance rights under the terms of the LTI Plan following the successful passing of a resolution at the 2021 Annual General Meeting of the Company. These performance rights had a performance period that ended on 30 June 2022 with performance and employment conditions set by the Board. The Board has not yet made a determination in relation to the vesting of FY22 Performance Rights.

In relation to FY22, an offer to participate in the LTI Plan was made to a number of other Company senior executives. The total performance rights granted was 408,807. These Performance Rights had a performance period that ended on 30 June 2022 with performance and employment conditions set by the Board. The Board has not yet made a determination in relation to the vesting of FY22 performance rights.

It is intended that the CEO and Managing Director will participate in the LTI Plan in relation to FY23. The maximum face value of the CEO's FY23 grant is based on an LTI opportunity of 50% of his fixed annual remuneration. The number of performance rights to be granted is determined by dividing the maximum face value by the 10-day volume weighted average price (VWAP) of the Company's shares preceding the start of the performance period, being the 10 trading days up to and including 30 June 2022.

The performance rights will vest at the Board's discretion, taking into consideration internal EBIT per share year on year growth targets refined as FY23 progresses (Absolute measure 65%) and performance of the Coventry share price as measured against the ASX Small Ordinaries Index (Relative measure 35%). An appropriate resolution will be put to the 2022 Annual General Meeting of the Company.

It is intended that a number of senior executives will participate in the LTI Plan in relation to FY23. The maximum face value of each senior executive's FY23 grant is based on an LTI opportunity of 25% to 40% of his or her fixed annual remuneration. The number of performance rights to be granted is determined by dividing the maximum face value by the 10-day volume weighted average price (VWAP) of the Company's shares preceding the start of the performance period, being the 10 trading days up to and including 30 June 2022. The performance rights will vest in the same manner as outlined for the CEO and Managing Director.

End of remuneration report.

11. ENVIRONMENTAL REGULATION

The Group is not subject to any specific environmental regulation.

The Group mainly operates from warehousing and distribution facilities throughout Australia and New Zealand which have general obligations under environmental legislation of the respective statutory authorities in relation to pollution prevention.

The Company has reviewed its obligations under the National Greenhouse & Energy Reporting Act 2007 (the Act). As the Group is under the minimum greenhouse and energy thresholds stipulated in the Act, there are no registration and reporting requirements that have to be complied with as at the date of this report.

For the financial year ended 30 June 2022 and as at the date of this report, the Group has not been prosecuted nor incurred any infringement penalty for environmental incidents.

12. INSURANCE OF OFFICERS

During the financial year the Company has paid premiums in respect of contracts insuring the directors and officers of the Company against certain liabilities incurred in those capacities. The contracts prohibit further disclosure of the nature of the liabilities and the amounts of the premiums.

13. CORPORATE GOVERNANCE

The Statement of Corporate Governance Practices is disclosed on the Company's website.

14. NON-AUDIT SERVICES

During the year KPMG, the Company's auditor, has performed certain other services in addition to their statutory duties. The Board has considered the non-audit services provided during the year by the auditor and is satisfied that the provision of those non-audit services during the year by the auditor is compatible with, and did not compromise, the auditor independence requirements of the Corporations Act 2001, for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by the Company and have been reviewed by the Company's Audit and Risk Committee to ensure they do not impact the integrity and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants, as they did not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

Details of the amounts paid to the auditor of the Company, KPMG, and its related practices for audit and non-audit services provided during the year are set out in Note 4 to the full financial report.

15. LEAD AUDITOR'S INDEPENDENCE DECLARATION

The lead auditor's independence declaration made in accordance with Section 307C of the Corporations Act 2001 forms part of this directors' report.

16. COMPANY SECRETARY

Mr Mark Licciardo is the founder of Mertons Corporate Services, now part of Acclime Australia and is the Company Secretary.

17. ROUNDING OFF

The Group is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with that Instrument, amounts in the financial report and Directors' Report have been rounded off to the nearest thousand dollars, unless otherwise stated.

Signed in accordance with a resolution of the directors.

Independent Auditor's Report

To the shareholders of Coventry Group Ltd

Report on the audit of the Financial Report

Opinion

We have audited the **Financial Report** of Coventry Group Ltd (the Company).

In our opinion, the accompanying Financial Report of the Company is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year ended on that date; and
- complying with Australian Accounting Standards and the Corporations Regulations 2001.

The **Financial Report** comprises:

- *Consolidated statement of financial position* as at 30 June 2022;
- *Consolidated statement of profit or loss, Consolidated statement of comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows* for the year then ended;
- Notes including a summary of significant accounting policies; and
- *Directors' Declaration*.

The **Group** consists of Coventry Group Ltd (the Company) and the entities it controlled at the year end or from time to time during the financial year.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with *the Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

This matter was addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Valuation of goodwill (\$36.9 million) and indefinite life intangible assets (\$11.9 million)

Refer to Note 15 and Note 16 to the Financial Report.

The key audit matter	How the matter was addressed in our audit
<p>The carrying value of goodwill and other intangible assets is considered with reference to the Group's analysis of future cash flows for the respective Cash Generating Units (CGUs) or individual assets (as applicable).</p> <p>The recoverability of these assets is a key audit matter due to the inherent complexity associated with auditing the forward looking assumptions incorporated in the Group's "value in use" (VIU) models and estimation uncertainties associated with ongoing global supply constraints, inflationary pressures and business disruption.</p> <p>The Group's VIU models are internally developed and use a range of internal and external data as inputs. Forward looking assumptions may be prone to greater risk for potential bias, error and inconsistent application. These conditions necessitate additional scrutiny by us, over key assumptions including forecast cash flows, forecast growth rates over the forecast period and discount rates.</p> <p>We involved valuation specialists to supplement our senior audit team members in assessing this key audit matter.</p>	<p>Our procedures included:</p> <ul style="list-style-type: none"> • assessing the Group's VIU models and key assumptions by: <ul style="list-style-type: none"> - evaluating the appropriateness of the CGU designation and VIU method applied by the Group against accounting standard requirements; - assessing the integrity of the models used, including the accuracy of the underlying calculation formulas; - comparing significant inputs into the relevant cash flow forecasts to the Group's approved budgets and projections; - assessing the accuracy of previous Group forecasts to inform our evaluation of forecasts incorporated in the models, including assessing the impact of business changes; - using our knowledge of the Group, its past performance, and our industry knowledge to challenge and assess key assumptions including forecast cash flows, forecast growth rates over the forecast period and discount rates; and - working with our valuation specialists, we independently developed a discount rate range using publicly available market data for comparable entities, adjusted by risk factors specific to the Group. • considering the sensitivity of the models by varying key assumptions, such as forecast growth rates and discount rates, within a reasonably possible range, to identify those assumptions at higher risk of bias or

	<p>inconsistency in application. We also assessed the related impairment breakeven points for these assumptions in order to identify those assets at higher risk of impairment and to focus our further procedures;</p> <ul style="list-style-type: none"> • working with our valuation specialists we compared the implied multiples from the Group’s models to multiples derived from comparable companies; and • assessing the disclosures in the financial report using our understanding of the recoverability assessment obtained from our testing and against the requirements of the accounting standards.

Other Information

Other Information is financial and non-financial information in Coventry Group Ltd’s annual reporting which is provided in addition to the Financial Report and the Auditor’s Report. The Directors are responsible for the Other Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor’s Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*;
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- assessing the Group and Company’s ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf. This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of Coventry Group Ltd for the year ended 30 June 2022, complies with *Section 300A* of the *Corporations Act 2001*.

Directors' responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A* of the *Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in pages 62 to 70 of the Directors' report for the year ended 30 June 2022.

Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with *Australian Auditing Standards*.
