- Net debt of \$26.9m as at 31 December 2021 (\$16.3m as at 30 June 2021), predominantly as a result of increasing inventory by \$11.3m due to price inflation and planned increases in stock levels to mitigate supply chain issues.

Robert Bulluss, Group CEO and Managing Director of Coventry Group said,

“The Group delivered pleasing sales and profit growth in H1 FY22. This was despite the negative impact of the enforced New Zealand Government Alert 4 lockdown in Auckland which we estimate negatively impacted sales in the order of \$3.0m and EBITDA in the order of \$750k.”

### Net Debt Position

Net debt as at 31 December 2021 of -\$26.9m (Net debt as at 30 June 2021 of -\$16.3m). Net Debt was impacted by:

- Increased inventory levels during the half of \$11.3m as a result of price inflation and to ensure high customer service levels while there are supply chain issues resulting from the COVID-19 pandemic.
- Capital expenditure of \$2.3m.

Our priority has been to maintain service levels to our customers during unprecedented uncertainty. During FY22 we will continue to take action to prudently manage inventory levels, collections and operating costs to improve our cash position.

### Dividends

The Company recommenced payment of a final dividend in FY21 and it is the Board's plan that this occurs in FY22 and in following years subject to the earnings and financial position of the Company.
